

2009 Summer League Coaches Pay Procedures

No paychecks will be issued without an application, signed W-4, copies of CPR, First Aid and Coaches' Safety Training cards and a work permit, if necessary, turned in.

You will need to email your hours to your head coach by the "Email Hours By" date in order to receive your paycheck on the pay date. Please list each day that you work and the number of hours you worked that day. If you miss any of your scheduled workdays please indicate who covered for you. If you covered for someone else please indicate whom you covered for and at which pool. If you do not email your hours on time your check may not be processed until the following payday. Assistant coaches are paid hourly wages based on the number of years you have coached Summer League for us. First year coaches are paid a "learner" wage, which is not less than 85% of the minimum wage. You will be paid for practices, meets, and time spent inputting meet entries.
